

Don & Caroline Armstrong

Regional Coordinators for Asia & the Pacific
Project #42.10035

Ministry Focus

- Don and Caroline travel throughout the region, working in collaboration with national leaders to develop regional strategies and country-specific strategies.
- They cultivate relationships within the Church of God across Asia and the Pacific, helping connect the church across the region.
- They also oversee projects and Global Strategy missionaries in the region, providing pastoral care and supervision.

Don and Caroline's experience with missions began in 1989 when they answered God's call to live and work in Babati, Tanzania. They served there for sixteen years, administrating and teaching at Babati Bible School, training young men and women to be pastors. In addition, they also built churches, brought the Children of Promise program to Tanzania, served as field leaders for the missionaries in the country, and founded Aldersgate Educational Center. While in Tanzania, they were privileged to see the Church of God grow from fifty churches to just over three hundred.

Don grew up in a pastor's home and at the age of fourteen, while attending a mid-winter youth camp, committed his life to Jesus. While working in the commercial insurance industry, he also volunteered in the junior high department at First Church of God in Vancouver, Washington. After five years, he began working with the college-age singles department, where he led for five years. After being elected to the board of trustees and later serving as chairman of the board, Don began to feel a growing interest in missions. A work camp to Brazil and then one to Africa led to a strong and very specific call to go into missions full time.

Caroline grew up in a Christian home and made her own commitment to the Lord at summer camp when she was fourteen. Through high school and college, she taught Sunday school and was active on committees. After marrying Don, she worked with him in the junior high and then singles classes.

After a three-year hiatus from missions, they answered a new call in 2008 to become Global Strategy regional coordinators for Asia and the Pacific.
