GLOBAL STRATEGY
CHURCH OF GOD MINISTRIES

2026 | PROJECT #43.44350

MATCHING GIFT OPPORTUNITY!

Pass Creek Sustainability

At Pass Creek, the Church of God property is a place where Lakota children and families experience care, consistency, and the love of Christ. But the aging bathroom and shower building—used by both local families and summer service teams—has deteriorated beyond repair.

To continue serving the community with dignity and safety, the Pass Creek community is launching a project to demolish the failing structure and install four new weather-resistant bathrooms. Two bathrooms will serve the community year-round, and two will support incoming service teams.

This project is part of the ongoing Pass Creek Sustainability project, ensuring that the ministry remains stable, safe, and rooted in long-term presence.

DOUBLE YOUR IMPACT AND GIVE TODAY

Now is the perfect time to give! Any gift you make will be **matched up to $45,000**, doubling your impact to help us reach the $90,000 goal for this project. Your support invests in both the day-to-day needs and the long-term flourishing of Lakota children and families.

Will you consider donating to the Pass Creek Sustainability project today?
